SUMMARY

UI/UX Designer with **3+ years** of experience designing **end-to-end** digital products across **healthtech, e-learning, and B2B/B2C marketplaces**. Skilled in turning complex, data-heavy workflows into intuitive interfaces, with hands-on ownership as sole designer across the full design process.

EXPERIENCES

2023 until Now

UI/UX Designer | Behfalab

(Enterprise web application · B2B / BPM)

Full time | Mar 2026 - Present

- Designing a **data-analysis dashboard for National Post Company**, turning raw operational data into views staff can actually act on.
- Designing the **conformance-checking and prediction modules** for the core platform.
- Leading branding for the "**Iran Process Report**" event — landing page, booklet, and brochure.

Product Designer | PathoFinder.ai

(Startup · B2B / Medical AI)

Part time- Remote | Dec 2025 - Present

- **Sole designer** on a hospital B2B platform using AI to analyze **orthopedic X-rays** across the spine, pelvis, knee, foot, and hand — owning the end-to-end design of clinical workflows, from **AI-assisted measurement tools** to physician-facing reports.
- Transformed complex orthopedic measurements into intuitive data panels enabling physicians to interpret results without manual calculations. **+300 patients** evaluated to date, with **clinical decisions** supported by measurements generated through the platform.

Product Designer | Rahafto

(Education Platform · B2C)

Part time | May 2025 - Dec 2025

- Designed the end-to-end **course purchase experience** — course discovery, checkout, and learning access — informed by **competitor research** on course credibility, value transparency, and flexible payments.
- Designed course pages with instructor information, reviews, and previews to improve **purchase confidence**, plus full and installment **checkout flows** with a clear pricing hierarchy.

UI/UX Designer | Khodropack

(Startup · B2B / B2C)

Part time | Mar 2024 -Feb 2025

- User interviews showed price and rating — not proximity — drove shop selection, so I rebuilt discovery around **card-level comparison** instead of a map view.
